

# AIR INTAKE SOLUTIONS

## WE STAND FOR PRODUCTIVITY

Our high-performance air intake solutions for heavy-duty engines will keep you operating longer between filter replacement and most importantly - will protect your equipment.

Our air intake systems are engineered to protect your engine, extend service intervals and lower maintenance costs.

Mammoth offers a range of different air filtration solutions from clamps, hoses, air filters, pre-cleaners to full air intake assemblies.

### THE MAMMOTH SOLUTION

Protect people and the environment

Longer running, lasting and better performing engines

Customised solutions to suit any machine

Remove and replace to suit existing brackets

## AIR INTAKE SOLUTIONS FEATURES

- Single and dual-outlet assemblies
- Anti-corrosion external and internal polyurethane paint coating;
